

# TRANSFER EXPERIENCE. BUILD CAPABILITY.

COMPANY PROFILE | 2026

[www.basrim.com.my](http://www.basrim.com.my)

Capability Development • Technical Consultancy • Professional Learning

# **TRANSFER EXPERIENCE. BUILD CAPABILITY.**

Empowering organisations through practical knowledge, industry expertise, and sustainable capability development.

# LONG LIFE LEARNING

## Your Technical Training and Consultancy Partner

- + Every industry is built on knowledge. Every project, every decision, and every innovation is the result of lessons learned through years of experience.

Yet often valuable knowledge remains with individuals and is lost when participants pay it back. At Basirim, we believe experience should never stop with the expert. It should be shared, applied, and transferred to help others grow faster, perform better, and avoid repeating costly mistakes.

- + **Knowledge Creates Value  
Only When It Can Be Applied**

Information is everywhere. Knowledge is accessible. But capability is built when people understand how to apply what they learn in real-world situations. That is why many people benefit from it. At Basirim, we believe practical learning that helps individuals and organisations convert knowledge into action, confidence into competence, and expertise into measurable results.

- + **Learning Should Create  
Workplace Impact**

Training should not end when participants leave the classroom. The true measure of learning is what happens afterwards. Can the knowledge be applied? Can performance be measured in real-world situations effectively? Can organisations achieve better outcomes? We believe learning is successful only when it creates meaningful workplace impact.

“ Because experience takes years to build. And when shared effectively, it has the power to accelerate learning, strengthen performance, and create lasting impact. ”

# ABOUT BASRIM

Basrim Sdn. Bhd. was established on 22 June 2009 with one clear purpose: to help organisations bridge the gap between knowledge and execution through technical training, consultancy, and capability development.

Built on years of frontline experience across engineering, construction, manufacturing, maintenance, and business operations. Basrim combines strategic thinking with practical application to deliver learning solutions that costs measurable impact.

We believe that real growth happens when knowledge is transferred in a way that people can apply immediately in the workplace. For this reason, our work extends beyond classroom learning and static reports. We focus on practical outcomes, operational improvement, and long-term capability development.

Whether through accredited training, customised learning programmes, or consultancy engagements, our goal remains the same:

“ To help people perform better, organisations grow stronger, and experience continue to create value for future generations. ”

# PROVEN DELIVERY. MEASURABLE IMPACT.

Over the years, Basrim has partnered with organisations across diverse industries to deliver professional learning, technical advisory services, and capability development initiatives that create meaningful workplace impact.

Our journey is reflected not only in numbers, but in the people, organisations, and industries we have supported through knowledge transfer, competency development, and operational improvement.

15

Industry Experience

18+

Countries  
Served

Today, Basrim serves clients across multiple industries, delivering solutions that support workforce development, organisational excellence, and continuous improvement in an increasingly competitive environment.

These numbers represent more than activity. They represent thousands of individuals, hundreds of organisations, and years of practical knowledge transferred through meaningful learning experiences.

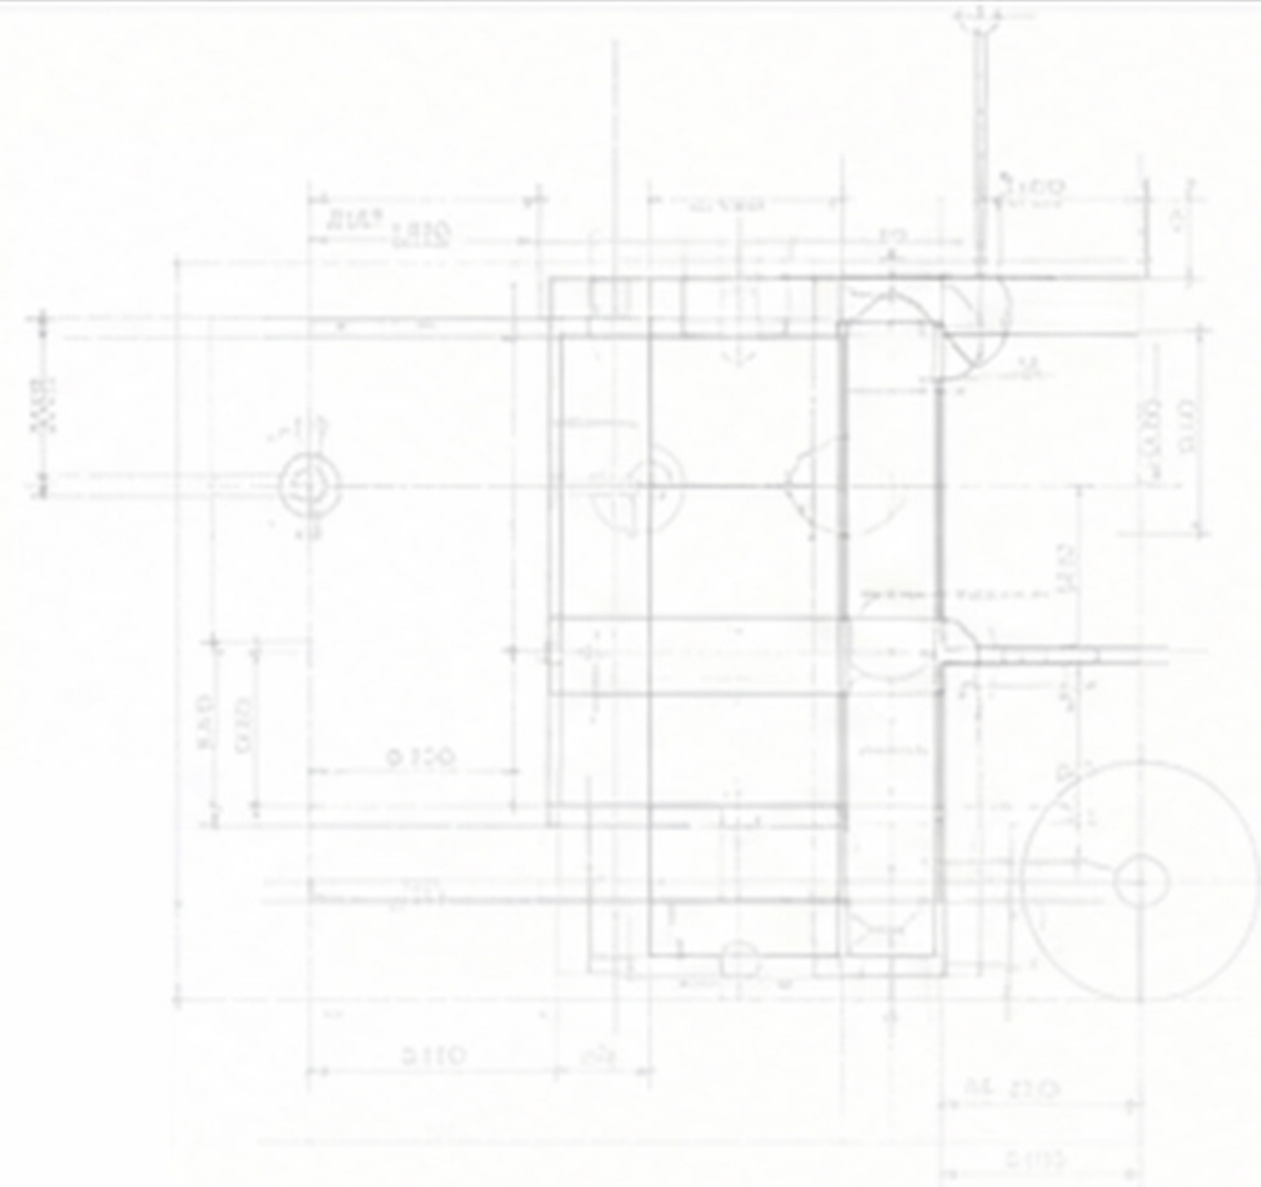

# WHY BASRIM

Basrim stands apart because we combine practical experience, technical expertise, and implementation-focused delivery.

Our trainers are not career facilitators who teach solely from slides and theory. They are practitioners, consultants, engineers, and industry professionals who have spent years solving real-world challenges before entering the classroom.

**You get direct access to our senior experts, not a junior executive."**

This enables participants to gain insights that go beyond textbook knowledge, learning directly from professionals who understand both the technical and operational realities of the workplace.

## WHY ORGANISATIONS CHOOSE BASRIM

01

**Experienced Industry Practitioners**

02

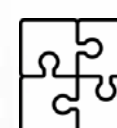

**Practical, Outcomes-Focused Learning**

03

**CIDB & HRDC Accredited Programmes**

04

**Customised Capability Development Solutions**

05

**Strong Technical & Professional Coverage**

06

**Consultancy & Implementation Expertise**

07

**Real Workplace Impact as the Measure of Success**

08

**19 Practitioners Across Multiple Disciplines**

**Because capability is built through experience, not information alone.**

OUR LEADERSHIP

At Basrim, experience is not a claim. It is the foundation of how we teach, consult, and solve problems. Our two principal directors have built careers across engineering, construction, manufacturing, and business. That combined field experience is brought directly into every programme and consultancy engagement we undertake.

TS. SHUKRI  
HJ ISHAK

SENIOR CONSULTANT - TRAINER - BUSINESS ADVISOR

SPECIALISATION: TECHNOLOGY TRANSFER & DEVELOPMENT

Ts. Shukri brings over 15 years of experience as Senior Consultant and Trainer at Basrim, where he serves as the driving force behind the organisation's training philosophy and business direction. He is both a CIDB-certified trainer and an HRDC-accredited trainer.

Prior to Basrim, Ts. Shukri held senior leadership roles across the manufacturing and precision engineering sectors, including General Manager at Sapura Motor Berhad, Senior Manager at ALPS Precisions Sdn Bhd, and Technical Section Head at Epson Precisions. He began his career as a Senior Technician at Matsuhita Industrial Corporation, building over a decade of hands-on corporate and operational experience before transitioning into training and consultancy.

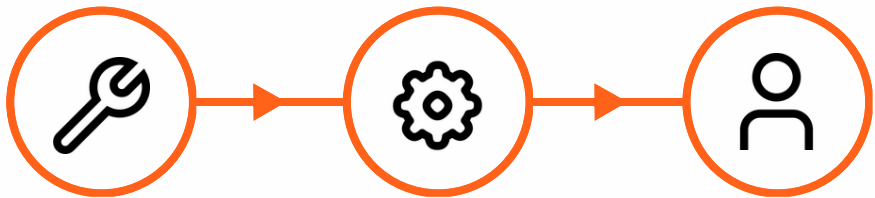

He has served as a Technical Consultant for Kementarian Pembangunan Usahawan from 2004 to 2008, and has undertaken freelance consultancy assignments for major engineering projects across Malaysia. Most notably, he led the forensic investigation into the roof collapse of Stadium Gong Badak, Terengganu, and oversight the construction and renovation of a mineral water factory (EPCC).

# OUR TRAINERS & CONSULTANTS

Basnim's team of 19 trainers and consultants are practitioners first. Many have spent decades on real project environments, leading teams, solving technical challenges, managing operations, and delivering practical results before stepping into the classroom. That real-world grounding is what makes Basnim's training different.

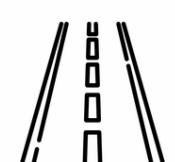

Our team includes CIDB-certified and HRDC-accredited trainers, professional engineers registered with the Institution of Engineers Malaysia (IEM), senior lecturers from public universities, and retirees from Jabatan Kerja Raya (JKR) and private sector organisations.

# WHAT BASRIM DOES

Basrim helps organisations strengthen capability, improve performance, and solve real-world challenges through practical learning and consultancy solutions.

Our work is built around a simple objective: to help people apply knowledge more effectively in the workplace.

## CIDB PROGRAMMES

Supporting construction and technical professionals through accredited SkP and CDD programmes designed to strengthen industry knowledge, compliance, and workplace performance.

## HRDC PROGRAMMES

Workforce development programmes that help organisations improve technical, professional, and leadership capability across multiple disciplines.

## CPD PROGRAMMES

Continuous professional development programmes designed to keep professionals current, relevant, and prepared for changing industry demands.

## TAILOR-MADE LEARNING SOLUTIONS

Custom-designed programmes developed around specific organizational challenges, operational requirements, and capability gaps.

## CONSULTANCY SERVICES

Practical advisory and implementation support delivered by experienced professionals who understand both strategy and execution.

## INTERNATIONAL PROGRAMMES

In collaboration with Asia Edu2ur Resources, Basrim extends learning beyond borders through education tourism and international exchange programmes.

## CIDB PROGRAMMES

Supporting construction and technical professionals through accredited SkP and CDD programmes designed to strengthen industry knowledge, compliance, and workplace performance.

## HRDC PROGRAMMES

Workforce development programmes that help organisations improve technical, professional, and leadership capability across multiple disciplines.

## CPD PROGRAMMES

Continuous professional development programmes designed to keep professionals current, relevant, and prepared for changing industry demands.

## TAILOR-MADE LEARNING SOLUTIONS

Custom-designed programmes developed around specific organisational challenges, operational requirements, and capability gaps.

## CONSULTANCY SERVICES

Practical advisory and implementation support delivered by experienced professionals who understand both strategy and execution.

## INTERNATIONAL PROGRAMMES

In collaboration with Asia Edu2ur Resources, Basrim extends learning beyond borders through education tourism and international exchange programmes.

# CIDB PROGRAMMES

Basrim's CIDB programmes are designed to help construction and technical professionals strengthen competency, maintain compliance, and enhance workplace capability. Our CIDB pathway includes both SkP and CDD programmes, accredited until 25 May 2027.

# TAILOR-MADE LEARNING SOLUTIONS

No two organisations face exactly the same challenges. While standard programmes can provide valuable knowledge, some situations require solutions designed specifically around a business's unique goals, challenges, and operational realities.

Basrim works closely with clients to understand their needs before developing customised learning solutions that address specific capability gaps and performance objectives.

**Because effective learning should solve real problems, not simply complete a training schedule.**

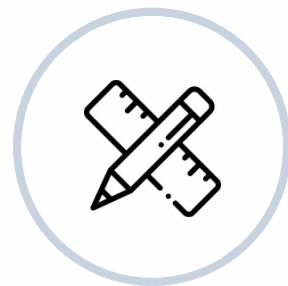

## OUR TAILOR-MADE PROCESS

### DISCOVERY

We understand your organisation's challenges, gaps, and objectives.

### DESIGN

We build a programme specifically around your operational realities.

### DELIVERY

Our industry practitioners deliver with real-world context.

### IMPACT

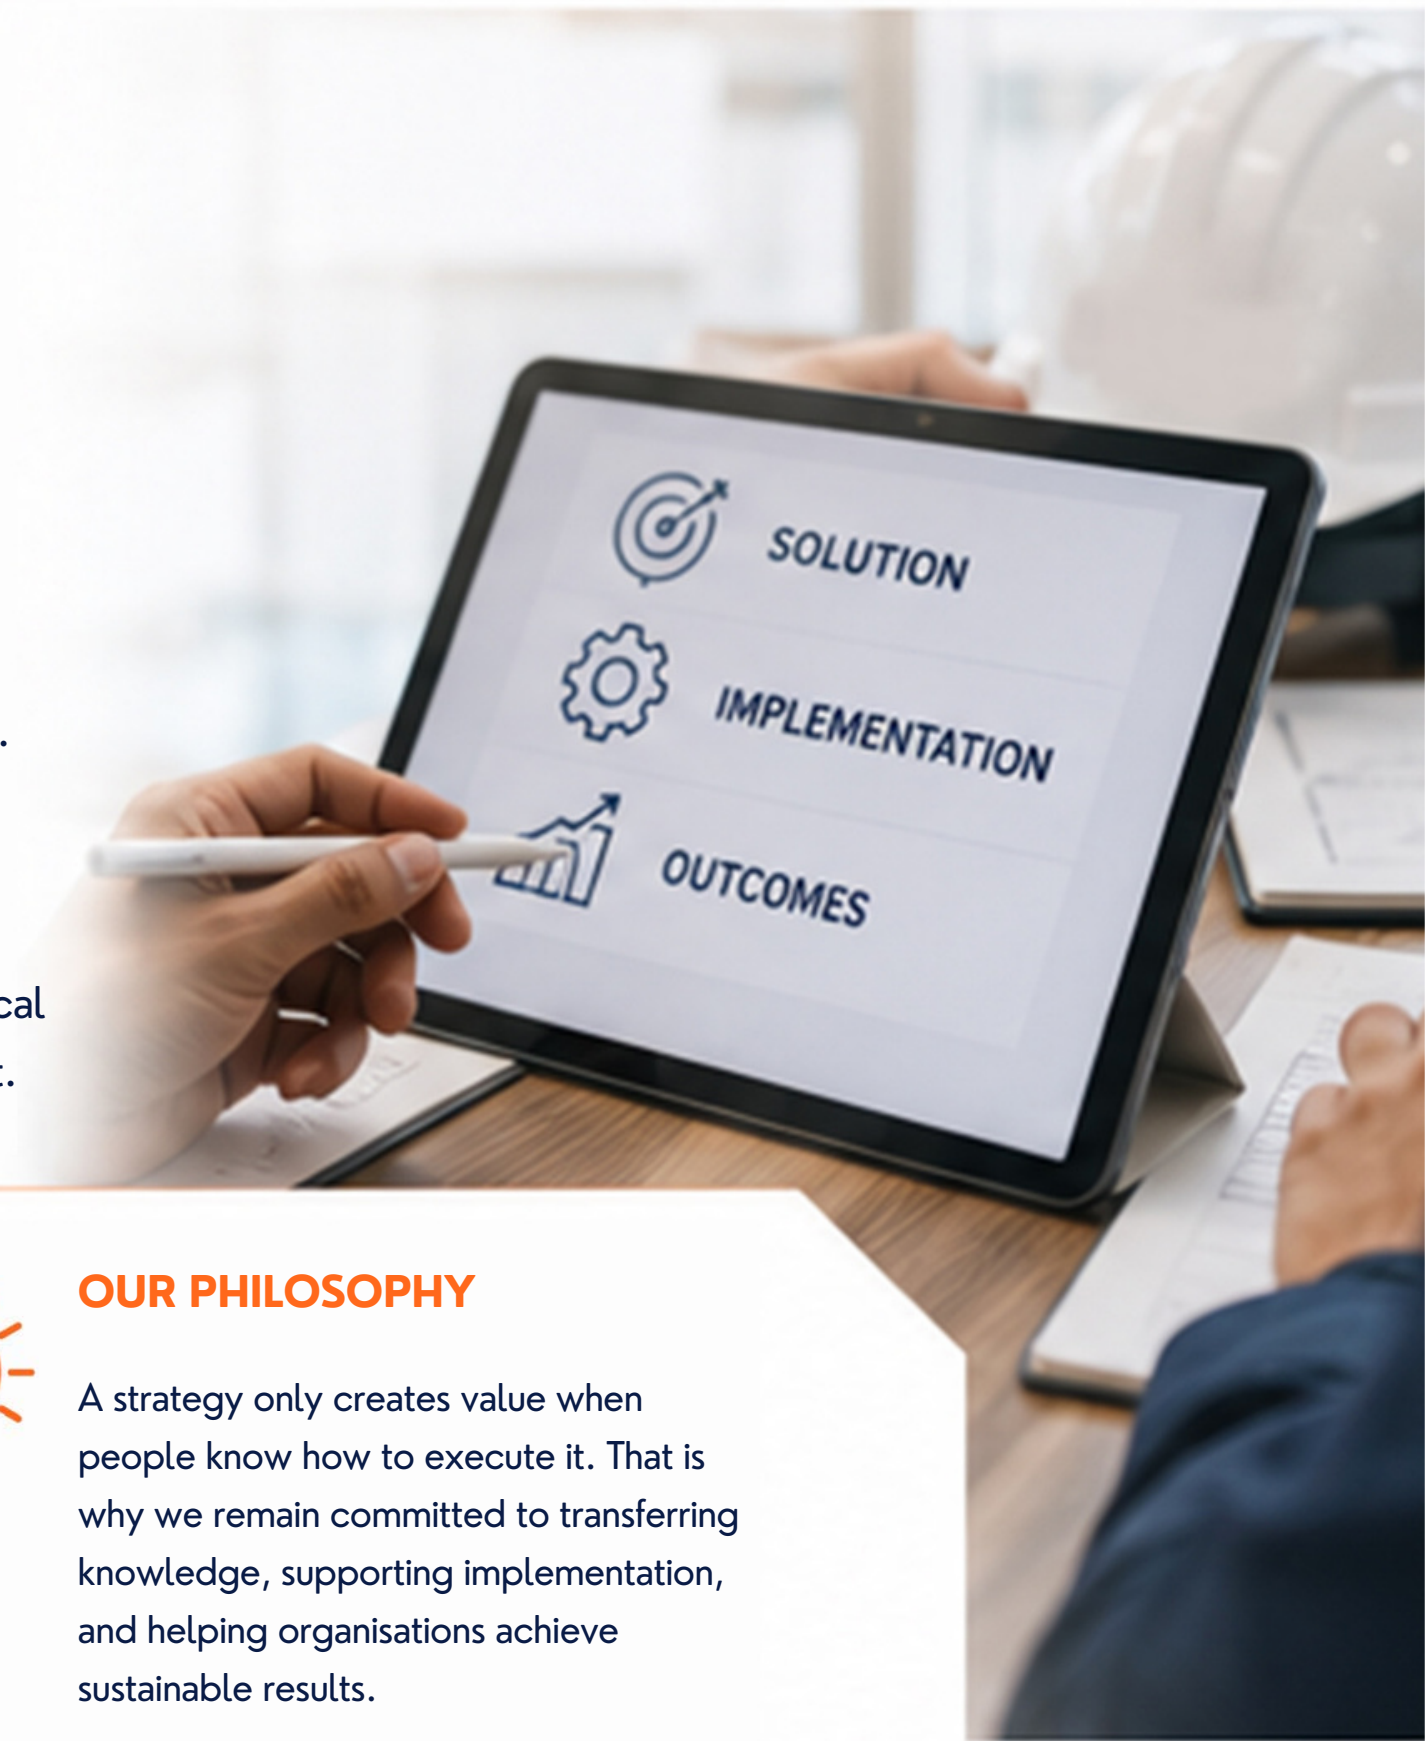

We measure outcomes, not just attendance.

**Custom solutions for real challenges.  
Real learning for real impact.**

# CONSULTANCY SERVICES

At Basrim, consultancy goes beyond recommendations and reports. We believe the most effective solutions are those that can be implemented successfully within the organisation. Our consultancy services support organisations across engineering, construction, maintenance, operations, and business improvement through practical guidance, technical expertise, and implementation-focused support.

## OUR APPROACH

We begin by understanding the challenge. Through diagnostic assessment, stakeholder engagement, and operational review, we identify root causes and practical opportunities for improvement.

From there, we work alongside clients to develop actionable solutions and support implementation through knowledge transfer, capability development, and practical guidance.

## OUR PHILOSOPHY

A strategy only creates value when people know how to execute it. That is why we remain committed to transferring knowledge, supporting implementation, and helping organisations achieve sustainable results.

**We don't leave behind a static report.  
We leave behind an empowered organisation.**

## CASE STUDY:

### STADIUM GONG BADAK FORENSIC INVESTIGATION

#### TERENGGANU, 2009

On 2 June 2009, the roof of Stadium Gong Badak in Terengganu collapsed. It was a significant structural failure, particularly given that the stadium had only been officially opened the previous year in 2008. Basrim was engaged as the second forensic team to conduct an independent forensic engineering investigation into the cause of the collapse.

The investigation required a rigorous, multi-method approach to reconstruct the sequence of events and identify structural failure points.

#### METHODS APPLIED

- ✓ Reverse engineering of structural components
- ✓ Inspection and analysis of witness statements
- ✓ Review against current engineering standards and codes
- ✓ Examination of the failed structural components
- ✓ On-site physical inspection of the collapse area

This assignment is representative of Basrim's consultancy capability: technically rigorous, independently credible, and grounded in real engineering experience.

# BASRIM INTERNATIONAL

POWERED BY:

**ASIA EDU2UR RESOURCES**

## LEARNING BEYOND BORDERS

Basrim International extends the organisation's commitment to capability development through international learning experiences, executive programmes, technical study visits, and global knowledge exchange initiatives.

The objective is simple: to connect organisations, professionals, institutions, and industries with valuable learning opportunities that broaden perspectives and encourage continuous improvement.

Our international initiatives include:

### **Executive Development Programmes**

Specialised learning experiences designed for senior leaders, managers, decision-makers, and industry professionals seeking exposure to global best practices.

### **Technical Study Visits**

Structured visits to industries, institutions, facilities, and organisations that provide participants with practical insights into operational excellence, innovation, and industry advancement.

### **Knowledge Exchange Initiatives**

Programmes designed to facilitate collaboration, learning, and professional networking between organisations, institutions, and industry practitioners across different regions.

### **International Delegation Management**

Planning, coordination, and management of professional visits, educational exchanges, benchmarking programmes, and international learning missions.

Through Basrim International, we continue to support lifelong learning, professional growth, and meaningful knowledge transfer on a regional and global scale.

**CROSSING  
BOUNDARIES**

**SHARING

# ACCREDITATION & RECOGNITION

Basrim's training capability is formally recognised by Malaysia's leading industry and regulatory bodies. Our accreditations provide assurance to clients, partners, and government agencies that our programmes meet established standards of quality and relevance.

CERTIFIED TRAINING CENTRE

CERTIFIED TRAINER

- ✓ Accredited Training Provider
- ✓ 26 Accredited Courses (SKP & CCD)

- ✓ Registered Training Provider
- ✓ Claimable under HRD Corp Levy

Malaysia Ministry of Finance (MOF)  
Registered Company  
Bumiputra Status

- ✓ Registered Vendor
- ✓ Qualified for Government Procurement

These accreditations confirm Basrim's eligibility to serve government agencies, GLCs, corporate organisations, and institutions seeking programmes that are formally recognised and claimable under national development funding frameworks.

# APPENDICES
